## Please Read

Never walk on groomed ski trails unless otherwise indicated  
Watch for blue and white snowshoe signs and red flagging tape

### Trail Descriptions

**Chalet Loop** (2 k; easier; 20-30 min) Fairly flat with some uphill sections. There are four shorter loop trails to add distance. Trail starts behind daylodge.

**Pine Forest** (4k; more difficult; 60-80 min) One long gradual hill in the first half; 100 m elevation gain. Shortcut reduces length by half. Trail starts in front of daylodge

**Panorama Ridge** (8k; more difficult; 2 - 2 1/2 hrs) A number of short uphills & downhills lead to summit (100 m elevation gain). There are 2 shortcuts that shorten the length by 1/2 and 1/4. Also, 3 short loop trails. Trail starts in front of daylodge.

**Jack Creek** (10k; most difficult; 2 1/2 - 3 hrs) Except for a short, steep hill near the beginning, the first part of the trail is either flat or downhill. From the bottom (beside Jack Creek), there is a significant 200 m elevation gain to the summit. Two side trails reduce the overall length. Trail starts in front of daylodge.

**Bullwinkle** (2.6k; more difficult 35-45 minutes) Connects Panorama to Jack Creek making a 5k moderately difficult loop option from the daylodge of 75-90minutes.

**Crystal Mountain** (13k; most difficult; 3-4 hours) Our longest and most difficult snowshoe trail. Obtain map at daylodge.
