

## NOTICE OF MUSIC VIDEO FILMING IN PROGRESS

### WHAT?

The band Crispr is filming a music video for a song about cross country skiing. Filming equipment including cameras, lights, and a drone will be used.

### WHEN?

Saturday, December 21, 2024. Between 9am and 5pm

### WHO?

Crispr (Crisp Rock and Roll) is a local band with deep roots in Telemark Nordic Club. Three of the founding members are long-time volunteers and the band has played at the club twice. The members are Deepa (vocals, guitar, ukulele, and percussion), Kyle (vocals and lead guitar), Barry (bass), and Darcy (vocals and drums).

Video production by Ivan Gorbenko, of IG Productions... and cross country skier.

### WHERE?

Scenes will be shot on some of the inner trails, at the fire pit, and in and around the lodge. The band will be playing in the lodge in the early afternoon. **Stick around after the santa ski if you want to listen and dance to the music.**

### WHY?

To sing and celebrate how awesome cross country skiing is!!
