

# Telemark has **geo-referenced** maps!

These are downloadable PDF maps that show your live location using your smart phone's GPS. Best of all, you do not need mobile coverage, it works no matter where you are on our trails!

**STEP 1:** Download a georeferencing app such as 'Avenza Maps' (free) onto your smartphone and register an account. Avenza is available in both Android and IOS stores.

[CLICK HERE](#) **FOR IOS**

[CLICK HERE](#) **FOR ANDROID**

**STEP 2:** Navigate to Telemark Nordic's georeferenced map on our website found here:

**STEP 3:** *IOS* - Copy the URL of our map and paste it into the "From the Web" option in the Avenza App\* Look for the  symbol at the top for loading maps.

*ANDROID* - Save the map to your phone and upload it in Avenza using the  button.

**Step 4:** Once the map is loaded, open the map and check that your location is live. If your location is not showing, ensure that the app is permitted to use location services and your smartphone's GPS is enabled.

\* Our PDF map may also be downloaded onto your smartphone and then uploaded in the app.
